UNIT-3
LECTURE-3

KINESICS

KINESICS

- Kinesics is the name given to the study of the body's physical movements.
- It is the way body communicates without words i.e. through various movements of its parts.
- Nodding your head, blinking your eyes, shrugging shoulders, waving the hands etc.
- 65% of message is communicated through non – verbal cues
- Sigmund Freud says:

  "*He that has eyes to see and ears to hear may convince himself that no mortal can keep as secret . If his lips are silent he chats with his finger tips: betrayal oozes out of him at every pore.*"

KINESICS

Aspects of Kinesics

- Personal Appearance
- Posture
- Gesture
- Facial Expression
- Eye contact

Kinesics

- **i)Personal Appearance**
- People see you before they hear you.
- As you adapt your language to an audience , you should also dress appositely
- Appearance includes clothes, hair, jewelry, cosmetics etc.
- Clothes accent the body's movements.
- One should be clean and well groomed , confirming to the need of the occasion.
- Plan your appearance in such away that it communicates effectively to others
- Appearances communicate how we feel about ourselves and want to be viewed

Kinesics

- **ii)Posture**
- It refers to the way we hold ourselves.
- Novice speakers generally get into certain mannerisms due to nervousness.egs: pacing constantly, bobbing shoulders, constantly moving or remaining static.
- Standing, sitting, or walking in a relaxed way is a positive posture, which will encourage questions and discussion.
- Also being comfortably upright , squarely facing the audience , and evenly distributing your weight all are aspects of postures communicating professionalism, confidence attention to detail, and organization.
- **The way we sit, stand or walk reveals a lot about you**:
- Slumped posture- low spirits
- Erect posture: high spirits , energy, confidence
- Lean forward: open , honest, interested
- Lean backward : defensive or disinterested

Kinesics

iii)Gesture:

- Movement made by hands, head , or face.
- Gesture enhances the value of what is being said.
- Gestures clarify ideas and reinforce them.
- There are about 7 lacs varied hand gestures
- Gesture should be natural and spontaneous
- **Types of gestures**:
  - Enumerative- numbers
  - Descriptive- size of objects
  - Symbolic- abstract concepts
  - Locative- location of objects
  - Emphatic- emphasis

Kinesics

iv)Facial Expressions:

- Face is the most expressive part of our body.
- Facial expression may show anxiety ,recognition, hesitation, and pleasure in quick succession.
- Facial expressions are subtle.
- A smile stands for friendliness, a frown for discontent , raised eyebrows for disbelief, tightened jaw muscles for antagonism Though there are five basic expressions , you can have 33 blends.
- **Five basic facial expressions:**
- Inhibited: restricted and stolid
- Uninhibited: spontaneous and impetuous
- Substitute: happy with long face
- Frozen: no change in expression
- Blank : no expression at all

Kinesics

- **v)Eye contact**
- Eye contact is direct and powerful form of non -verbal communication.
- Eyes are a rich source of feedback
- Looking directly at listeners builds rapport.
- This direct and powerful form is a signal of confidence and sincerity
- Prolonging the eye contact for three to five seconds tells the audience that the presenter is sincere in what he/she says and that he/she wants to pay attention.
- Arabs, Latin Americans, and South Europeans look directly into the eyes.
- Asians and Africans maintain far less eye-contact
- Eye contact and eye movement help tremendously in the filtering process or in getting the desired response or feedback

Questions ?

- Q1. Explain the different non- verbal communication used to turn your presentation effective.
- Q2.Write a short note on kinesics.
- Q3. Explain the five basic face expressions.
- Q4.What are the various types of postures
