ODD Term Mid Semester Examination –2 (3rd Sem)

Session: 2024-2025

ODD Term—2024-25
Semester – III
Subject Code :23IT304
Time :1½ Hours

Mid Semester Exam – II
Date: - 08 /11/2024
Subject :OOP
Max. Marks: 30

Instructions:

1. All questions are compulsory.
2. Give appropriate figure where ever necessary.
3. Marks will be allotted as zero if wrong question number is mentioned.
4. Assume the data wherever required

Q.1. (UNIT 4) Solve Any Two	With a code snippet, illustrate the usage of `try`, `catch`, and `finally` blocks in handling exceptions with Suitable example.	[5]	CO2 (Level 2)
	Apply built-in exceptions to check for null values and index out of bounds when accessing an array element in a loop.	[5]	CO2 (Level 2)
	Apply exception handling to a banking application where an invalid transaction amount throws a custom `InvalidAmountException`.	[5]	CO2 (Level 2)
Q.2. (UNIT 5) Solve Any Two	Analyze the differences between byte streams and character streams, and determine which is more suitable for handling text data.	[5]	CO3 (Level 3)
	Analyze how text input/output differs from binary input/output in Java and identify scenarios where each should be applied.	[5]	CO3 (Level 3)
	Analyze the performance considerations when using different types of streams for large file processing, comparing `FileInputStream` with `BufferedInputStream`.	[5]	CO3 (Level 3)
Q.3. (UNIT 6) Solve Any One	Design a simple Swing application with a JFrame that includes various components (JButton, JLabel, JTextField), demonstrating basic event handling.	[10]	CO 4 (Level 4)
	Design an AWT application using a `Frame` with `Button`, `Label`, `TextField`, and `Checkbox` components, illustrating how each component functions in a basic GUI.	[10]	CO 4 (Level 4)
